

COVID Guidelines For Audiences

Live Theatre Workshop is committed to continuing great theatre while keeping our patrons, artists, and staff safe from the transmission of COVID-19. We closely monitor CDC and local health department recommendations to ensure that we align with the best practices. Below are our current guidelines and expectations.

These guidelines will be updated as health recommendations improve or worsen.

VACCINATION

We encourage all patrons to be fully vaccinated for COVID 19. Proof of vaccination is not required.

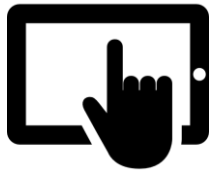

MASKS

Masks are recommended while attending Live Theatre Workshop. Performers are all vaccinated, tested weekly, and will not be wearing masks during the performance.

SELF-WELLNESS ASSESSMENT

All patrons, staff, performers, and volunteers are asked to ensure they are feeling well and without COVID related symptoms before attending a production. If you aren't feeling well or aren't sure, we will reschedule your tickets.

DIGITAL PROGRAMS

Digital and hard copy programs will be available at the box office. Digital programs can be accessed at the theatre with a smartphone and can also be emailed to you upon request.

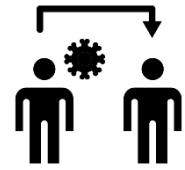

LIMITED TIME

Seating will begin no earlier than 30 mins before show time, with assistance and accommodations for patrons with special needs. Patrons are welcome to wait for seating in any of our outdoor spaces.

AIR FLOW

HEPA filters and HVAC fans will run throughout the theatre to ensure a consistent exchange of fresh air.

COVID EXPOSURE

All patrons, staff, performers, and volunteers are asked to remain at home if they have been in contact with someone who is known or suspected to have COVID-19 in the past 6 days

We cannot eliminate all risk of infection.

Please consider your personal health and circumstances when making the choice to attend live theatre.
